

Docker login. Note that there was no need to input credentials since I already logged in on the desktop application

```
Administrator: Command Prompt - powershell
PS C:\WINDOWS\system32> docker login
Authenticating with existing credentials...
Login Succeeded
PS C:\WINDOWS\system32>
```

docker tag usage. I had to create a new image from a container since the image (blueaxis/ping) has the correct name

```
Administrator: Command Prompt - powershell
PS C:\WINDOWS\system32> docker commit -a 'David Elner' -m 'Added ping utility.' 23a foo/bar
sha256:75e93a01bd8b05af8baaeac11aaef6638bd45f2975202415c19b7c0cd205cd99
PS C:\WINDOWS\system32> docker images
REPOSITORY          TAG                 IMAGE ID            CREATED             SIZE
foo/bar              latest             75e93a01bd8b       6 seconds ago      169MB
blueaxis/ping        latest             8e6b03fd3be4       18 minutes ago     138MB
ubuntu               16.04             aefd7f02ae24       2 weeks ago        134MB
PS C:\WINDOWS\system32> docker tag foo/bar delner/ping:1.0
PS C:\WINDOWS\system32> docker images
REPOSITORY          TAG                 IMAGE ID            CREATED             SIZE
delner/ping          1.0                75e93a01bd8b       About a minute ago  169MB
foo/bar              latest             75e93a01bd8b       About a minute ago  169MB
blueaxis/ping        latest             8e6b03fd3be4       19 minutes ago     138MB
ubuntu               16.04             aefd7f02ae24       2 weeks ago        134MB
PS C:\WINDOWS\system32> docker rmi foo/bar
Untagged: foo/bar:latest
PS C:\WINDOWS\system32> docker images
REPOSITORY          TAG                 IMAGE ID            CREATED             SIZE
delner/ping          1.0                75e93a01bd8b       About a minute ago  169MB
blueaxis/ping        latest             8e6b03fd3be4       19 minutes ago     138MB
ubuntu               16.04             aefd7f02ae24       2 weeks ago        134MB
PS C:\WINDOWS\system32>
```

Pushing an image. Second image is the repository page in my account.

```
Administrator: Command Prompt - powershell
PS C:\WINDOWS\system32> docker push blueaxis/ping:latest
The push refers to repository [docker.io/blueaxis/ping]
