C:\Users\Andre\Desktop\Week 10\ME8_Containerization_and_Docker\3-building_images>docker push
"docker push" requires exactly 1 argument.
See 'docker push --help'.

Usage:  docker push [OPTIONS] NAME[:TAG]

Push an image or a repository to a registry

C:\Users\Andre\Desktop\Week 10\ME8_Containerization_and_Docker\3-building_images>docker push dolarandre/ping:1.0
The push refers to repository [docker.io/dolarandre/ping]
